

ST MARKS UPDATE – AUGUST 2018

CONSTRUCTION PROGRESS

The finishing trades are now in full swing and the site has never had so many workers swarming over it!

On the exterior, glazing work continues to the upper levels and installation of the stylish bronze-gold fins has begun. Final work to the roof is being carried out, and once completed the plastic cover will be removed – a highly anticipated milestone.

Inside the apartments, the skilled tradespeople are tiling bathrooms and floors, installing kitchen cabinetry and fitting the Miele appliances. The high level of specification combined with the skills of the construction team is showing through with finished apartments presenting exceptionally well.

CAFÉ OPERATOR ANNOUNCED

We are delighted to announce the café space has been leased to the operators of Dear Jervois, one of Herne Bay's favourite eateries! Snø will be a stylish European café and bakery, operating from early morning to late afternoon and offering great coffee, cabinet food and healthy brunch and lunch dishes. The below artist impression of the interior looks amazing and we can't wait to see the space transforming over the next couple of months.
